

MINOSH Communication oO. 2022- 74: Weekend Read

Dear MinOSH Members:

Weekend Read-

This is an important resource material on “Mercury and health manual for UNACOH”. Be on top of current trends on adverse health effects of mercury on human health.

The teaching materials / toxicology course was developed by Diálogos in Denmark (Founding member is Erik Jors) with partners during the years. You can also share this with your stakeholders, groups, partners and linkages.
